

We are a leading consultancy firm

Stirixis is an industry leading consulting agency, specializing in the fields of quality management systems certification, human capital development and the use of available EU funds.

Through our experience in working with a wide range of clients, we at Stirixis can guarantee that your company will receive the support it needs to systemize your processes, fuel growth and guide you to the path of success.

At Stirixis we are aware of the difficulties

that arise in developing clear and efficient in-house processes and management structures.

We also know that is equally important for your staff to understand them and put them to practice in an efficient manner. This is why we are strong believers in systemization, since it will boost growth by maximizing effectiveness, while also making it easier for staff to follow clear guidelines.

At Stirixis

We specialize in systemizing processes and providing company staff

with the necessary training to use these processes effectively, by employing expert trainers and working out of a specialized training center, to help our clients develop their staff's abilities even further.

To enhance our services, we have also chosen to expand in the field of finding and securing funds made available through national and EU schemes.

What we stand for

Mission

We assist the evolution of companies and organisations through enhancement of internal processes, staff training and fund acquirement.

Vision

To be the leading choice for companies who aspire consistent development and growth.

Management Systems

Management systems enable organizations to implement a structured approach to their activities, systemize processes and establish clear internal procedures to achieve their objectives. They are applicable to any type and size of organization.

Stirixis, through the implementation of ISO Management System Standards (MSS) helps organizations improve their performance by specifying repeatable steps they should follow for their better functioning and success. This creates an organizational culture which engages in a continuous cycle of self-evaluation, correction and improvement of operations and processes.

The added value of ISO Management System Standards:

- More efficient use of resources and improved financial performance
- Improved risk management and protection of people and the environment
- Increased capability to deliver consistent and improved services and products, increasing value to customers

Consulting

Stirixis, combines its other services with the preparation of business plans and feasibility studies.

Our team has gained experience in preparing the above for customers, with the aim of securing business loans through Financial Institutions, as well as, in preparing plans to obtain EU funding, since many programs require the preparation of business plans and techno-economic studies.

Stirixis undertakes the preparation of effective business plans which include the narrative description of the business or idea as well as the financial forecasts.
